## Rx Data Collection

# Data collection requirement for prescription drug data reporting submission

Prescription Drug Data Collection (RxDC) reporting is required to be sent to the departments of Health and Human Services, Labor and Treasury no later than 6/1/2026. This is in response to the Transparency in Coverage rule of the Consolidated Appropriations Act.

We are committed to complying with all legal and regulatory requirements affecting our business operations and our customer's health benefits. The following is how we're helping our **Small Group** plan sponsors submit these reports.

## The submission process

1. Starting February 2nd, we'll send an email to all Small Group plan sponsors with instructions on how to submit the required data.
2. They should fill out the RxDC Plan Sponsor Data Collection Form with the required data **by 3/31/2026**. Required data:
  - Average monthly premium paid by members
  - Average monthly premium paid by employer
3. **Broker Submission Option:** you may use this form to provide the information to Aetna on behalf of your client
  - [Aetna Prescription Drug Data Collection](#)

4. We can then use the data to submit on behalf of your client.

## **Process for submissions that are missing or incomplete by 3/31/2026**

We will submit the report without the required plan sponsor data. Failure to respond will impact our ability to accurately report on the plan sponsor's behalf, and Aetna will not be responsible for any liability associated with the inaccurate report.

**What you can do:** Help your clients gather and report the data so they won't have anything else to worry about.

**We're here to help! If you have any questions or want to discuss this process, please contact your Aetna representative.**

### **What you can do**

Help your clients gather and report the data so they won't have anything else to worry about.

### **We're here to help!**

If you have any questions or want to discuss this process, please contact your Aetna representative.
