

UnitedHealthcare renews network relationship with Dignity Health in California

UnitedHealthcare and Dignity Health in California reached a multi-year agreement that will keep Dignity's facilities and its affiliated physicians in network for employer-sponsored, individual and Medicare Advantage plans.

Our priority is to ensure our members have access to the care they need through a robust network of physicians and facilities, and we are pleased we reached an agreement with Dignity that preserves our members' access to quality, affordable care.

Thank you for your support throughout the negotiation process. We're honored to continue serving nearly 3 million people across California.

If you have any questions, please contact your UnitedHealthcare representative.

Thank you.
